

Luna

Lively yet easy to handle

LUNA

Luna shown with cyan blue deck & hatches, black fade & seam and a baby blue hull.

An agile, lightweight kayak designed for the small to medium sized paddler

The compact Luna is a responsive touring kayak.

This multi-purpose boat is at home on day trips across the bay or a week in and around the islands. A slightly rockered hull enhances maneuverability of this playful, soft chined craft.

The Luna fulfills the need for a smaller, lightweight kayak that excels in touring performance. 

"Seaward Kayaks truly represents the best of the recreational industry today – quality, personal & professional service & support and most importantly: Heart - a complete love for the craft coupled with pride."

Jim Ahasay, Spokane, WA
