

Tyee

Forgiving and easy to paddle

TYEE

Tyee shown with medium blue deck & hatches, royal blue seam and a white hull.

A stable cruiser that is fast and comfortable

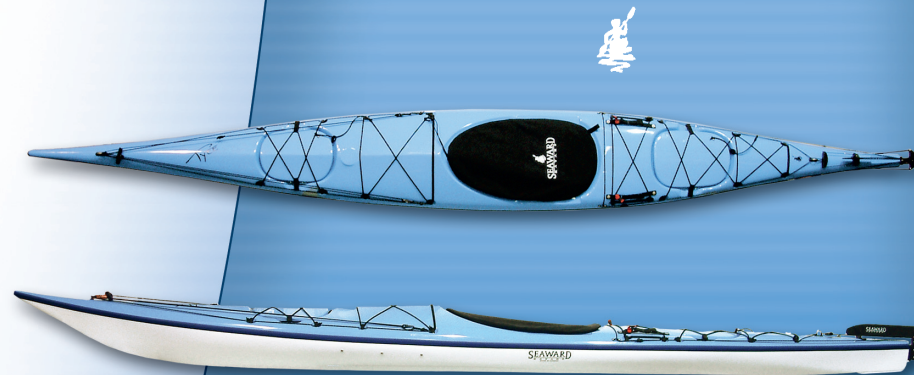

Having the greatest stability of any Seaward kayak, the Tye's flatter hull and long waterline make this boat an excellent choice for fishing, photography or casual tripping.

The Tye's snug fitting cockpit and extra volume in the bow allow for a dry ride even when heavily loaded.

The paddlersideRDS option is available to be installed when ordering your Tye. In comparing medium volume kayaks, the Tye is responsive while exploring for an afternoon and easy to handle for cruising. 

" We have used Seaward Kayaks in our fleet (over 50 presently) for the last nine years and now use them exclusively. We find Seaward extremely responsive to the needs of the customer, the boats are state of the art, and the service fast and accurate. Seaward Kayaks met all our expectations regarding price quality and service."

Dale, Alberni Marine Transport
